## About the DMSC

The mission of the **Digital Metrology Standards Consortium (DMSC™, Inc.)** is to identify urgently needed standards in the field of digital metrology that promotes, fosters, and encourages the development and **interoperability** of these standards, as well as related and supporting standards that will benefit the industry as a whole. The Dimensional Measuring Interface Standard (**DMIS**) and the Quality Information Framework (**QIF**) are two such standards that the DMSC has the responsibility to continue to develop, maintain and support. Additionally, the DMSC also coordinates and harmonizes with other related standards efforts. The **DMSC is an ANSI Accredited Standards Developing Organization, as well as an A-Liaison to ISO.** The DMSC invites participation from other standards groups and consortiums whose activities seek to resolve the interoperability and technology issues of automated (digital) metrology.

## Membership Benefits

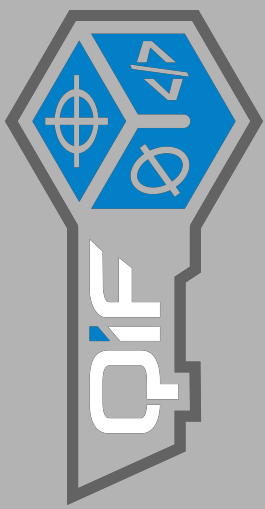

- ✓ Share the proliferation of consistent interoperable metrology standards
- ✓ Cross-industry collaboration with QIF users and developers
- ✓ Access to QIF lessons learned and recommended practices
- ✓ Understand effective ways to integrate QIF with your supply chain
- ✓ Advance international standards for product data exchange
- ✓ Cost sharing and resource pooling for digital metrology technology
- ✓ Solve metrology industry issues in a non-competitive or pre-competitive atmosphere
- ✓ Representation of your organization's technology, systems and processes

## Membership Includes

- 1) **Funded Development Projects:** Pool resources to research and develop metrology technologies
- 2) **Voting:** Steer the future of digital metrology
- 3) **Participation in all Committees and Forums:** Propose improvements and establish updates to metrology standards

## Membership Request Form

### 1. Member Information:

#### Primary Contact

Name  
Email Address  
Phone  
Company  
Company Address

#### Invoice Contact

Name  
Email Address  
Phone

### 2. Select Your Membership Level (Check one):

Membership Level	Organization Size	Annual Contribution
<input type="checkbox"/> Member Company	5000+ employees	\$14,995
<input type="checkbox"/> Member Company	501 – 4,999 employees	\$9,995
<input type="checkbox"/> Member Company	51 – 500 employees	\$4,995
<input type="checkbox"/> Member Company	11 – 50 employees	\$2,995
<input type="checkbox"/> Member Company	2 – 10 employees	\$995
<input type="checkbox"/> Member Company	1 employee	\$195
<input type="checkbox"/> Government (DoD, DoE, Natl Labs)	NA	\$4,995
<input type="checkbox"/> Academic (University, College)	NA	\$995
<input type="checkbox"/> Non-Profit (SDO, Consortium)	NA	\$3,495

### 3. Membership Application Authorization:

Total Annual Contribution (\$): \_\_\_\_\_  
Applicant Authorizing Name (printed): \_\_\_\_\_  
Applicant Authorizing Title: \_\_\_\_\_  
Applicant Authorizing Signature: \_\_\_\_\_

Upon receipt, the Digital Metrology Standards Consortium will send an invoice for the requested annual membership.

Payment is **due 45 days** from invoice issue date.

Email completed membership request form to:
